HR-V RS

e:HEV

ELEGANCE FOR THE EVERYDAY DRIVE

The All-New Honda HR-V RS e:HEV combines sporty yet elegant looks with intelligent hybrid power and versatile functionality. Perfectly balanced for performance, technology, and efficiency, it is designed for those who refuse to compromise on style or sustainability.

DESIGNED TO COMMAND ATTENTION

Command the road with every detail. From the sculpted front grille and darkened accents to the gloss-black side skirts, rear bumper accents, and 18-inch alloy wheels, every angle exudes sporty confidence.

The panoramic glass roof fills the cabin with light, while striking colour options and smoked taillights add flair and distinctive as the SUV itself.

WRAPPED IN CONFIDENCE

Step inside a cabin crafted for both comfort and style. Leather seats with red stitching and RS badges embrace you with style and comfort, while the driver's 8-way power-adjustable seat lets you find your perfect position.

RS-style pedals add a sporty touch, and every surface is thoughtfully designed to enhance the driving experience.

TAILORED COMFORT AND VERSATILITY

Clever design meets everyday versatility. With four easy configurations, Honda Magic Seats® adapt to whatever life brings:

- ① **Refresh Mode** - Enjoy the view by removing the head restraints and folding back the seats.
- ② **Tall Mode** - Fold up the rear seats to gain some extra storage height for larger items.
- ③ **Long Mode** - Fold down all the seats on the left- or right-hand side of the car and you will have plenty of room for those long items.
- ④ **Utility Mode** - Need to take your gear with you for an outdoor excursion? Just fold down the rear seats and you are all set.

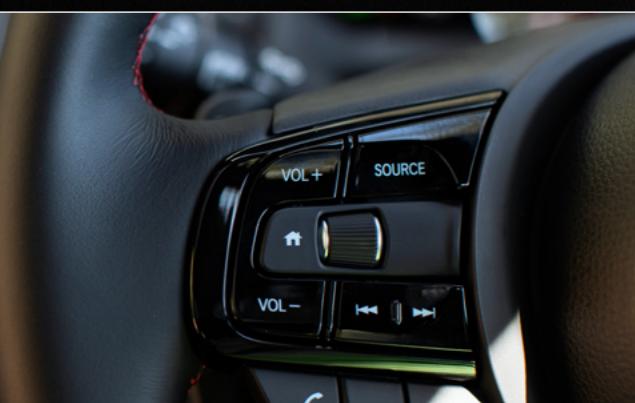

A SMARTER, MORE CONNECTED DRIVE

Stay connected and entertained with the 8-inch touchscreen infotainment system, featuring wireless Apple CarPlay® & Android Auto™. Wireless smartphone charging ensures your devices are always powered.

A premium 8-speaker sound system surrounds you with rich, clear audio, and automatic climate control keeps every passenger comfortable.

RS-specific detailing and a 7" TFT Driver Information Display elevate the cabin, while Honda Magic Seats® and a hands-free Electric Power Tailgate add practical, smart versatility.

DRIVE SMART. DRIVE HYBRID.

Take every drive to the next level with this SUV's advanced e:HEV hybrid system.

A 1.5-litre Atkinson-cycle petrol engine and two electric motors deliver smooth, responsive power, 96 kW and 253 Nm of torque.

With a fuel economy of just 4.2 L/100 km, every journey is efficient without compromise. Reduced emissions, quiet rides, and intelligent performance make every drive feel natural, exciting, and entirely yours.

Drive Mode Select

With Drive Mode Select, you can choose how every journey feels with ECON, NORMAL, or SPORT modes. Optimise efficiency for city cruising, enjoy balanced performance for everyday driving, or unleash responsive, dynamic power for a more spirited ride.

Our advanced e:HEV hybrid system seamlessly transitions among three interchangeable drive modes:

EV Drive

Delivers instant acceleration from standing, almost silent cruising and 100% electric drive.

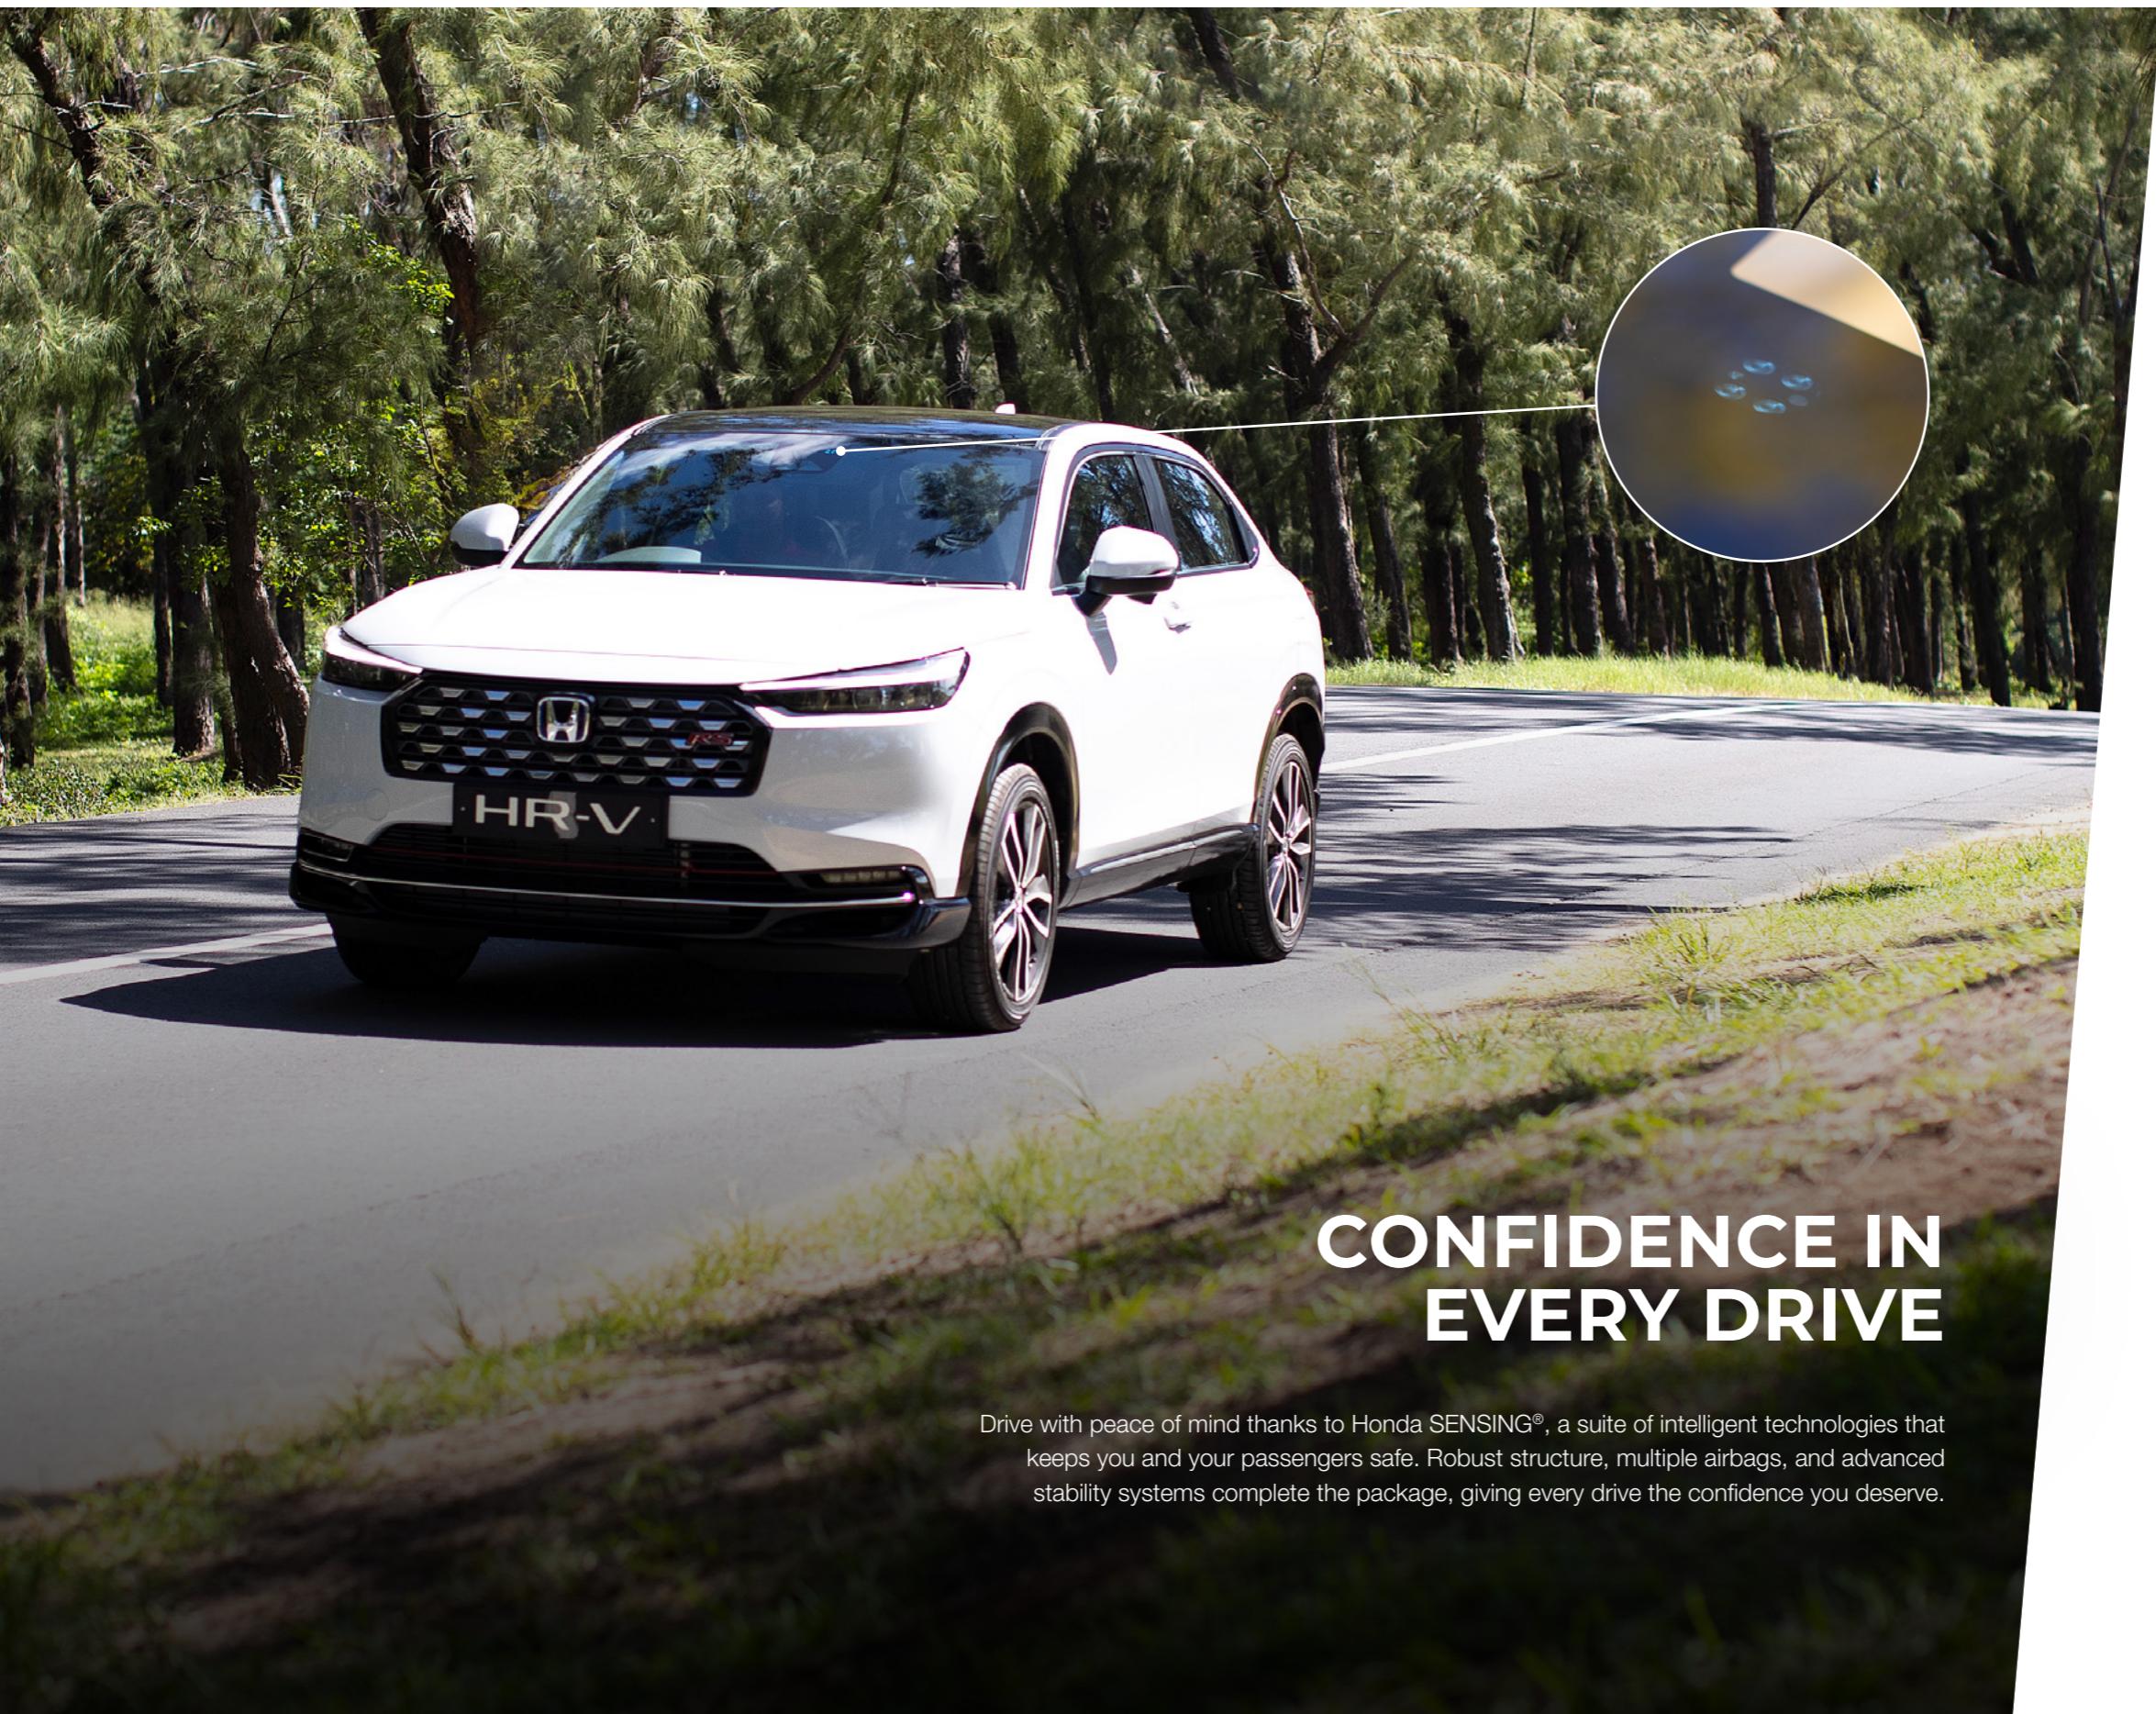

Hybrid Drive

Combines the petrol engine and the two electric motors for a highly efficient full hybrid performance.

Engine Drive

Uses the petrol engine to maintain higher speeds – and charges the battery while doing so.

CONFIDENCE IN EVERY DRIVE

Drive with peace of mind thanks to Honda SENSING[®], a suite of intelligent technologies that keeps you and your passengers safe. Robust structure, multiple airbags, and advanced stability systems complete the package, giving every drive the confidence you deserve.

ROAD DEPARTURE MITIGATION SYSTEM

with Lane Departure Warning

Alerts and helps to assist you when the system detects a possibility of your vehicle unintentionally crossing over detected lane markings or approaching the outer edge of the road surface through slight steering wheel vibration as well as a warning display.

COLLISION MITIGATION BRAKING SYSTEM

This system is designed to alert you when a potential front collision is determined, as well as to reduce your vehicle speed to help minimise collision severity when a collision is deemed unavoidable.

LANE KEEPING ASSIST SYSTEM

Prevents the vehicle from drifting into adjacent lanes by detecting lane markers on the road and uses autonomous steering to keep the vehicle centred.

HIGH BEAM SUPPORT SYSTEM

Automatically changes your headlights from low beam to high beam on a clear road, and then back to low beam when an oncoming vehicle is detected.

ADAPTIVE CRUISE CONTROL

with Low Speed Follow

Helps maintain a constant vehicle speed and a set following interval behind a vehicle detected ahead of yours and, if the detected vehicle comes to a stop, can decelerate and stop your vehicle.

A STRIKING FINISH

Available in four striking colours, perfectly paired with its modern design. Choose from Opal White Pearlescent, Meteoroid Grey Metallic, Brilliant Sporty Blue Metallic or Coffee Cherry Red Metallic.

Opal White Pearlescent

Meteoroid Grey Metallic

Brilliant Sporty Blue Metallic

Coffee Cherry Red Metallic

A full-front view of a silver Honda HR-V Hybrid RS eCVT parked on a sandy beach. The car features a black roof, black side mirrors, and black plastic trim along the bumpers and sides. The license plate area says 'HR-V'. The background shows the ocean and a distant shoreline under a clear sky.

HONDA

The Power of Dreams

Indicated CO2 and fuel consumption figures quoted are obtained when testing the motorcycle in line with the compulsory requirements of SANS 20083 and therefore may not necessarily be achieved under day-to-day driving conditions. Actual fuel consumption figures may be influenced by a range of factors, including but not limited to motorcycle maintenance, driving style and behaviour. Fuel consumption may be further affected by the environmental factors and conditions under which the motorcycle is operated including altitude, road condition and traffic flow. The figures used in this guide should therefore be treated as indicative only.

Honda Mauritius under E.A.L Man Hin (Pty) Ltd. reserves the right to change and modify equipment or specifications at any time without prior notice. The models illustrated in this brochure may show specifications for various markets and not specifically for Honda Mauritius Market. They may include optional equipment and accessories not fitted as standard. Subject to error. For precise information, please contact your Honda Mauritius Dealership.
