Indicated CO2 and fuel consumption figures quoted are obtained when testing the vehicle in line with the compulsory requirements of SANS 20083 and therefore may not necessarily be achieved under day to day driving conditions.

Actual fuel consumption figures may be influenced by a range of factors, including but not limited to vehicle maintenance, driving style and behaviour. Fuel consumption may be further affected by the environmental factors and conditions under which the vehicle is operated including altitude, road condition and traffic flow. The figures used in this guide should therefore be treated as indicative only.

Specifications may change at any time without prior notice. The models illustrated in this leaflet may show specifications for various markets and not specifically for Southern Africa. They may include optional equipment and accessories not fitted as standard. Not to be reproduced wholly or in part without written permission from Honda Motor Southern Africa (Pty) Ltd.
